

ATT: To whom it may concern;

**Subject: FOOD CONTACT REGULATIOM - BOPET**

We herewith attest that the PET film distributed by **ASPK- Advanced Solutions for Packaging** can be safely employed for food packing.

The film is made of raw materials, which withstand the requirements for raw materials to be used in food contact applications in accordance with the **EC Directive 10/2011** and **FDA** requirements of the Code of Federal Regulations in section: **21 CFR 177.1630** and **Israeli standard 5113 (2002)**.

In addition we confirm that:

1. The PET film distributed by **ASPK- Advanced Solutions for Packaging** does not intentionally contain any substances of very high concern (**SVHC**) according to the **European regulation 1907/2006EC (REACH)**.
2. The PET film distributed by **ASPK- Advanced Solutions for Packaging** complies with the limits as set by RoHS Directive (EU) 2015/863 amending Annex II to Directive 2011/65/EU.

**Issued February 2018**

**On behalf of  
Guy Sadok  
CEO
